PRESSURE WASH SWIVEL ADAPTERS

SS1120 SERIES

PRODUCT OVERVIEW

The SS1120 Series Pressure Wash Swivel Connectors provide 360° rotation to help prevent hose kinking, reduce operator fatigue, and extend hose life in high-pressure cleaning applications. Manufactured from stainless steel, these high-flow swivels are designed for pressure washer systems operating up to 4,500 PSI, with flow rates up to 10.5 GPM and temperatures up to 300°F (150°C).

Part Number	Connection	Material	Pressure Rating
SS1120-BB-3000	1/4" MPT x 1/4" NPSM	Stainless Steel	4,500 PSI
SS1120-CC-3000	3/8" MPT x 3/8" NPSM	Stainless Steel	4,500 PSI

Property	Specification
Maximum Flow Rate	10.5 GPM (40 LPM)
Maximum Temperature	300°F (150°C)
Box Quantity	100 pcs

FEATURES

- 360° swivel action
- Helps prevent hose kinking
- Reduces hose stress and operator fatigue
- Stainless steel construction
- Compact design
- High-pressure service

APPLICATION

- Pressure washers
- High-pressure cleaning equipment
- Industrial wash-down systems
- Pressure wash hose assemblies

NOTE:

- Designed for pressure washer and high-pressure cleaning applications.
- Swivel design allows unrestricted hose rotation during operation.
- Verify thread compatibility before installation.
