PROPANE FLOAT GAUGES

TE-FGUM SERIES

PRODUCT OVERVIEW

Fairview Propane Float Gauges provide a visual indication of the liquid level inside propane tanks. The float mechanism inside the tank rises and falls with the liquid level, transmitting movement to an external dial for easy level monitoring.

Part Number	Thread Size	Compatible Tank Capacities
TE-FGUM-E	3/4"-14 NPTF	20 lb, 33.5 lb, 43.5 lb, 420 lb
TE-FGUM-H	1"-11.5 NPTF	20 lb, 33.5 lb, 43.5 lb, 420 lb

Property	Specification
Gauge Type	Float-Type Liquid Level Gauge
Thread Sizes	3/4"-14 NPTF, 1"-11.5 NPTF
Compatible Tank Sizes	20 lb, 33.5 lb, 43.5 lb, 420 lb Propane Tanks
Installation	Threaded Tank Connection

FEATURES

- Mechanical operation
- No power required
- Direct-reading dial indicator
- Durable float assembly
- Available in multiple thread sizes
- Designed for propane tank level indication

APPLICATION

- Propane tanks
- Forklifts
- RVs
- Trailers
- Stationary propane systems

NOTE:

- Intended for propane service applications.
- Verify tank compatibility prior to installation.
- Follow applicable propane equipment installation requirements and local codes.
